## Terminal Map Description

**Overview:** Texarkana Regional Airport has a two-level terminal with two gates (Gate 1 and Gate 2) located on the upper level (Floor 2). The terminal is oriented with curbside pick-up and drop-off along the front (south side) and parking areas beyond.

**Entering the Terminal:** Passengers enter the terminal from the curbside pickup/dropoff area along the front of the building. Inside the main entrance on Floor 1, airline ticket counters and check-in areas are located near the center. Rental car counters are positioned toward the left side of the terminal. Restrooms and vending are available in the pre-security area.

**Security and Post-Security Areas:** The TSA security checkpoint is centrally located on Floor 1. After clearing security, passengers proceed upstairs to Floor 2, which contains the post-security concourse. Amenities in the post-security area include restrooms, seating areas, a pet relief area, water fountains, and a water refill station.

**Gate Locations:** Gate 1 and Gate 2 are located on Floor 2 within the post-security concourse. Both gates are positioned near the center of the terminal and are accessed directly from the main seating area.

**Baggage Claim:** Baggage claim is located on Floor 1 in the pre-security area, near the main entrance and adjacent to ground transportation access.

**Ground Transportation:** The curbside area in front of the terminal provides access to pickup and dropoff, including rideshare and hotel shuttle services. Designated areas for these services are located along the curb.

**Parking:** Parking is available directly in front of the terminal across the access road. Parking lots are located on both sides of the main entrance, within short walking distance of the terminal.
